R. Ballhorn Host at Picnic Supper to Shorthorn Club

Improvements achieved in the up-building of herds of pure bred Shorthorn cattle were appraised and admired on Saturday when 75 enthusiasts made an inspection of the registered stock on the farms of five outstanding breeders on the occasion of the annual Northern Alberta Shorthorn club field day. A motorcade of 20 autos made the trip of 150 miles through the Millet and Wetaskiwin district after breeders had gathered at the university farm from points so wide-spread as Blackfalds, Clive, Lacombe, Stettler, Millet, Vegreville, Vermillion and Wetaskiwin.

The day opened with a basket lunch supplied by club members on the university campus and closed with a picnic lunch served on the fine home grounds of Richard Ballhorn, master farmer, and provided by Mr. and Mrs. Frank Ballhorn and Mr. and Mrs. Richard Ballhorn, Wetaskiwin.

Angus McDowell, St. Albert, club president, was chairman of the day. Credit was paid Miss E. L. Holmes for arrangements and to Lyle Robinson of Vermillion, vice-president, and other directors for the good attendance from a distance.

W. W. Sharpe, Stettler, president of the Alberta Shorthorn association, expressed pleasure at the advance made by the breed in this province. Interest taken by the breeders of Shorthorns was indicated by the four field days at clubs. He drew attention to two more, that of Central Alberta Shorthorn club at Lacombe, June 22, and that of Avondale club to be held at Olds, July 18, the first day of Edmonton exhibition.

Mr. Sharpe also said a provincial Shorthorn picnic would be held at his farm on or about August 10 with classes, judging, competitions and short course lectures during the afternoon.

Prior to their leaving the University campus, Dr. R. C. Wallace, the president, who lunched with the club under the trees, spoke a word of welcome on behalf of the institution, which he said endeavored to keep close to the problems of the farmers. In the future the dean of agriculture hoped to have available for picnics of farm groups visiting the university farm, a convenient picnic grounds in the glen near the livestock pavilion.

During the drive as stops were made to inspect the Shorthorn herds, owners gave descriptions of their stock, pointing out particular individuals. These included prize winners and cups with notable milk records. Brief talks were given by livestock experts. Several family parties went along.

On the first inspection at the Furlong farmstead in the Millet district where the house and yards are surrounded by evergreens, Angus McDowell, club president, declared that the first herd inspected was ample evidence of the advance made by the Shorthorn, "the farmer's cow," in the province. He called on W. J. Durno, western fieldman, Calgary, to lead the discussions.

Mr. Durno's fund of information relative to the blood lines and pedigrees was of great value as the various herds were subjected to critical inspection by club members and their friends.

Visitors were impressed by the

fine milk records shown on cards above each cow in the dairy barn of Mrs. Helen Furlong. There was Milkmaid Queen, five-year-old, with 365-day record of production, 13,285 pounds of milk; 435 of butterfat, average test of 4.1; another cow, same age, Matchless Maid, r.o.p., 10,091 pounds of milk; others of the 11 cows and heifers also were good producers.

This herd is headed by Western Demonstrator, from the Prince of Wales ranch, a grandson of Climo, late Crocus, imported and with production record of 11,200 pounds of milk.

Taking two of these high-producing cows for illustration, J. P. Sackville, professor of animal husbandry, University of Alberta, pointed out the breed characteristics and good points shown by this dual purpose herd.

On the L. E. Marr farm, a herd of 42 Shorthorns, all raised by the owner except the herd sire Lencaster, a blood-red bull which came from the Prince of Wales ranch, was seen as well as several head of heifers this breeder had just sold to John W. West of Millet, district, as foundation for a new herd. The original stock on this farm had come from the former Lyle herd of Strome. The sire, Lencaster, was strictly Scotch bred, as was the stock of the farms visited previously.

Mr. Marr has 15 Shorthorn cows that produce an average of over 8,000 pounds of milk annually and 321 pounds butterfat, the herd test on milk averaging over four per cent. Three of the cows seen held r.o.p. totals above five tons, one 12,000 pounds, and another exceeded 14,000. The young stock in this herd was strong, by a bull bred by Angus McDowell.

H. A. Craig, deputy minister of agriculture, complimented Mr. Marr on the creditable herd he had after 14 years' breeding, during which time he had made many sales, done a good work in building up quality herds on other farms.

One of the outstanding individuals in the herd of J. O. Harvey, next viewed, was Gladys, a cow which has the following r. o. p. credits: As a two-year-old, 4,495 pounds milk; as a three-year-old, 10,504, and as a four-year-old 14,357 pounds, testing 4.23. Mr. Harvey has some stock from noted breeders. The present sire is a young bull, Rayalto Chieftain, which was raised by Angus McDowell.

Time was short for an extended inspection of the 106 head of Shorthorns on Pinedale farm, owned by Frank Ballhorn. The herd is headed by Cambus Hammerman, a beautiful roan, imported from Scotland two years ago. In the barn were six young bulls and in the cow, many of which were of striking size and type. No special attention was paid to production records of milk, only breeding counted.

Arriving at Justamere Stock Farm, east of Wetaskiwin, on the Camrose highway, at 6:30 p.m., the splendid Shorthorns of Richard Ballhorn, master farmer, were looked over with frequently voiced approval. The herd is headed by Princeton Revealor, bred from im-

(Continued on Page 5)

Town Topics

The many friends of Frank Fee regret to learn that he is quite seriously ill.

Mr. and Mrs. Frank Turner of Wilkie, were in town last week, renewing acquaintances.

J. J. Maloney held two services in the Elks' hall on Sunday last, both of which were attended by large crowds.

The regular meeting of the W.M.S. will be held at the home of Mrs. (Dr.) Stevenson on Tuesday June 21, at 3 p.m.

The many friends of A. S. Craig are pleased to learn that he is somewhat improved after a recent attack of illness a few days ago.

W. F. H. Montgomery has been confined to the house several days through illness, but his friends are glad to know that he is now convalescing nicely.

This district has experienced exceptionally fine growing weather during the past week, and vegetation of all kinds is well advanced for this time of the year.

The Wetaskiwin students who attended Normal School in Camrose during the past term have returned home and we understand they were all successful in passing their final examinations.

W. Irvine, M.P., will become a resident of Wetaskiwin about July 1st, having leased the house on Andras street formerly occupied by J. P. Johnson, and he will take possession the first of the month. Mr. and Mrs. Vassar, who now occupy this residence, will move to the Walla house on the east side.

Mrs. Ida Ecklund of Wetaskiwin district, received a very pleasant surprise on Sunday, June 5th, when about thirty-five friends and neighbors gathered at her home in honor of her sixtieth birthday. She was the recipient of many beautiful gifts, showing the high honor and esteem in which her friends regard her. The evening was very enjoyably spent in games and various amusements, after which a dainty luncheon was served. All report having had a most enjoyable time.

MEMBER FOR WETASKIWIN ON STATE MEDICINE BOARD

The special legislative committee authorized by the last session to inquire into and report on the whole subject of state medicine was announced June 1. Hon. Geo. Hoadley is chairman. Sitting with the minister without portfolio; W. G. Farquharson, Ribstone, and Rudolf Henning, Victoria, representing the U. F. A. Hugh J. Montgomery, Wetaskiwin, Liberal; Dr. W. A. Atkinson, Edmonton, Conservative; Chris Patton, Edson, Labor; and George Cruickshank, Rocky Mountain, Independent. Since prorogation the department of health has been busy collecting data on state medicine from British Columbia, where a similar investigation was recently held, and from various European countries where the system has been tried. It is expected that several meetings will be held during the summer, and that when the report is tabled at the next session a full and complete picture of the situation will be laid before the legislature.

A. P. EWART'S SEDAN BADLY SMASHED IN COLLISION

A serious auto collision occurred on the Pigeon Lake highway late Saturday evening, when a gravel truck, owned by Ted Rogers of Millet and a Durnand sedan, owned by A. P. Ewart, collided near Mr. Ewart's gateway. It is not known definitely how the accident occurred, but as a result the gravel truck ran into the ditch, and little damage was done to it, but Mr. Ewart's car is almost a complete wreck. Axel Larson was driving the sedan, and the other passengers were A. P. and Andrew Ewart. The passengers were only slightly injured, and how they escaped so easily is a miracle.

Owing to the unsettled state of the weather and the rough condition of the roads, it was decided to postpone the Elks picnic which was to have been held yesterday at Pigeon Lake, until the 22nd.—Lodge Representative.

ERECTION CROSS OF SACRIFICE TO BE PROCEEDED WITH AT ONCE

A general meeting of the Wetaskiwin Branch of the Canadian Legion was held in the Odd Fellows hall on Sunday afternoon. Quite a number of important matters were dealt with, the most important being that of having a picnic at Pigeon Lake July 1st, and also eventually deciding to proceed at once with the erection of a Cross of Sacrifice in memory of those who had fallen in the Great War. An expression of thanks was recorded on the minutes of the meeting to organizations who already had promised to assist in every way they could to make the Memorial a reality.

The Provincial convention of the Canadian Legion will be held in Calgary in July. Comrade President C. S. Bear of Millet, will be the official representative from Wetaskiwin Post.

WETASKIWIN DISTRICT SCHOOL FAIR SEPTEMBER 2

At a meeting of the Wetaskiwin District Associated School Fair executive held in the Alexandra school on Saturday last, representatives were present from Angus Ridge, Bul-yea, Bears' Hill, Pleasant Prairie, Haultain, Lone Ridge, City, Bright view and Lucas school districts.

After discussion it was decided that the Fair be held on Friday, September 2nd, and an effort will be made to secure the use of the curling rink for the occasion. A Grounds Committee was appointed, consisting of Eli Moore, J. Ware and J. Vassberg, and a committee consisting of J. Scottfield, Eli Moore and Roy Ballhorn was named to arrange the prize list. The Elks Lodge will be interviewed with a view to having that organization take charge of all sports and parades connected with the Fair.

\$175,000,000 SPENT IN AID OF UNEMPLOYMENT

Ottawa, June 12.—By the end of this year, it is estimated that \$175,000,000 will have been spent by various government agencies in the relief of unemployment. This includes federal, provincial and municipal contributions.

Of the total some \$150,000,000 have been spent on public works and \$25,000,000, it is estimated, will be applied to direct relief this year.

Weddings

PETERSON—BRUNNER

The home of Mr. and Mrs. George Brunner of the Lewisville district, was the scene of a quiet and pretty wedding, on Wednesday, June 15th, when their daughter Winnifred, became the bride of Edwin Peterson of Wetaskiwin. The ceremony was performed by Rev. J. A. Wingfield, in the presence of the immediate relatives and a few friends.

The bride was accompanied by her sister Jean, and F. H. Svensen acted as best man.

After the ceremony the happy couple left on a motor trip to Calgary, Banff and B.C., and on their return will take up their residence in Wetaskiwin, where the groom is master of the U.F.A. Store. Their host friends wish them every success and happiness for the future.

Obituary

ARVID STROMSEN

The many friends of Arvid Stromsen of Wetaskiwin, will regret to learn that he passed away at the Calgary Sanatorium on Tuesday, June 14, after an illness of long duration. He had been a patient in the Wetaskiwin hospital for some time, and on June 1st was taken to the Sanatorium, but his life could not be spared.

He leaves to mourn his untimely loss his mother, Mrs. Stromsen of Wetaskiwin, and two sisters, namely Mrs. McQueen of Calgary and Mrs. Fluckiger of Chicago. The funeral took place in Calgary, and interment was made in the cemetery there.

Town Topics

Mrs. Thos. Willows of Dorellee, is visiting at the home of Mr. and Mrs. G. H. Robinson.

Miss Marguerite Bell, R.N., of Edmonton, is visiting at the home of Dr. and Mrs. Shillabeer.

The C.P.R. are offering a bargain coach excursion to Banff on Saturday, June 18th round trip being \$1.75.

The many friends of Mrs. J. C. Shillabeer are glad to learn that she is improving nicely after her recent illness.

Mrs. A. R. Rodger and Lois, who spent a week visiting with Mr. and Mrs. F. A. Westwood, returned to their home in Kitchissippi on Friday.

Mr. and Mrs. F. A. Westwood went to Kitchissippi on Friday, where they spent several days visiting at the home of the latter's sister, Mrs. A. R. Rodger.

Mrs. A. L. Elliott has as her house guests this week, her father, Mr. J. C. Weir, of Victoria, B.C. and Mrs. McColgan of Wetaskiwin.—Macleod Gazette.

The last meeting of the Wetaskiwin Women's Institute will be held at the home of Mrs. W. A. MacAllister on Thursday afternoon, June 23rd, at 3 o'clock. The members are asked to bring thimbles and needles.

A. E. Wynne attended the Grand Lodge A.P. & A.M. held at Calgary last week as a representative of Wetaskiwin Lodge No. 15. He was installed as D.D.G.M. of this Masonic district for the ensuing year.

Information has been received from the Bureau of a recent survey, Washington, D.C. that the gull found dead by Billy Beavo a short time ago, was a young California gull, which had been banded by F. L. Farley at Gull Island, British Lake on June 22nd, in 1929. This information will be of particular interest to all students of bird life.

The members of Wetaskiwin Lodge B.P.O.E. and their wives held their last social evening of the season on Monday evening last, when a very enjoyable time was spent by a large number of the members. A number of the Ponoka Elks accompanied by their ladies, were also present. After cards and luncheon, dancing was enjoyed until the wee small hours.

What promises to be one of the best baseball games of the season is billed for Friday evening of this week with the Young Liberals, one of Edmonton's best teams, as the visitors. The Wetaskiwin Citizen's Band will also be present and will play a number of selections. Come out and see Wetaskiwin's team at full strength.

Under the auspices of the Women's Institute a Baby Clinic will be held in the sun parlor of the City Hospital on June 27th, from 10 a.m. till 4 p.m. The Clinic will be one day only. The local doctors are giving their time, and two doctors will be in attendance both morning and afternoon. Extra nurses will be arranged for if needed. Remember the date, June 27th. All children under school age are welcome.

Peace Hill Chapter I.O.E.F. closed a very successful year with a social evening at the home of Mrs. C. C. Watson. After a delicious 7 o'clock buffet supper, there was a dress parade, which provoked much merriment and prizes were given. The ladies then engaged in a quilting bee, and four wool comforters were tied. These will be donated to the local Community Welfare League this fall as well as other sewing, such as layettes, lingerie, etc., which have been made by the members of this Chapter, during the meetings and at home. Several cash donations have been given during the year, in the interests of Child Welfare and other charitable purposes. There will be no regular meetings during July and August.

Hon. Perren Baker at Trustees' Conference

Hon. Perren Baker minister of Education, and Dr. J. H. Ross, deputy minister, were the representatives from the department to attend the semi-annual conference of the Wetaskiwin Inspectorate School Trustees' Association meeting held in the Alexandra school here Saturday afternoon.

Over sixty of the one hundred and forty-two districts in the inspectorate sent delegates. The meeting took the form of a round table conference, and both Hon. Perren Baker and Dr. Ross were called upon to answer many questions of importance bearing on the different difficult problems the trustees are confronted with during these times of depression.

In his few remarks Dr. Ross spoke of the changed conditions of today as compared with normal times, stating there were many things in the home we must now do without. There was now a large surplus of teachers in the province, and he advised the school boards to engage the strongest teachers possible. The teacher in the school and if the proper teacher is secured the best results will be obtained.

Hon. Mr. Baker preferred to the difficulties today caused by things that made for the advancement of the world. On account of man's knowledge and power over the forces of nature there was an overproduction which was beyond our ability to consume, which has resulted in depression. There are different views of what is ahead of us, but the minister was sure this period of depression would be followed by prosperity and history would repeat itself. Education will be maintained and the schools and universities would not be closed.

In discussing the live question as to whether Grades IX and X should be taught in the rural public schools, Inspector Scottfield gave as his opinion it would depend on accommodation, the number of teachers taught in the school, the teacher's experience, and the opportunity which pupils have of attending high school.

Another matter which caused an animated discussion was the present method of collecting taxes, namely, by the treasurers of the municipalities, rather than by the treasurers of school districts. Many districts were not satisfied as more monies were given school districts than the amount of taxes collected in that district, while other districts where there was little arrearage of taxes could not get the full appropriation as the money was spent in the weaker districts.

The conference thought the minimum of teachers salaries should have been reduced by the department, as teachers were being engaged below the amounts stipulated by the government although the schedules, showed that the minimum was being paid.

In reply to another question the minister stated that an elector can vote only in one district, where his home is, although he may own land in other districts.

The Consolidation Act passed in 1931 and the amendments of this year were also explained. A delinquent taxpayer may now have his taxes consolidated and pay them in equal annual instalments over a period of five years.

V. E. Thompson the president, was in the chair, and Fred Kaiser was the secretary. The convention was very enthusiastic, and another meeting will be held in the fall.

FORMER WETASKIWIN GIRL IS POPULAR JUNE BRIDE

Cardston, June 11.—An event of wide interest took place Wednesday morning, June 8, at the residence of the bride's parents when Rev. E. Davidge of the United Church in Cardston, solemnized the marriage of Helen Dawson, only daughter of Mr. and Mrs. H. L. Higgs, to Robert Edgar Walton of Trail, son of Mr. and Mrs. A. W. Walton of Edmonton.

The ceremony was performed in the living-room effectively decorated with a profusion of early summer flowers. The bride who was given in marriage by her father, was charming in a lovely gown of triple chiffon in eggshell tone and fashioned on princess lines. A modish lace jacket and picture hat completed the ensemble. She carried a bouquet of American Beauty roses. The wedding music was played by Mrs. E. Finkle.

At the breakfast, following, the table was centered with the bride's cake, with vases of crimson roses at either end. Just before the cutting of the cake, Mr. Finkle in a happy way, expressed the sincere wishes of the guests for a long and happy life, proposing the health of the bride, to which the bridegroom responded.

Early in the afternoon, Mr. and Mrs. Walton left by motor for a honeymoon in British Columbia. For travelling the bride chose a smart frock of flame rosamarine crepe, with trimmings of black and sard polo coat. After July 1 the bride and bridegroom will be at home in Trail.

Mr. Walton, a graduate of the University of Alberta of class '28, is a mining engineer on the staff of the Consolidated Smelters in Trail, and Mrs. Walton of the class of '29, has been bio-chemist at the Royal Alexandra hospital in Edmonton.

Wetaskiwin Student Wins Normal Academic Cup

Camrose, June 11.—The importance of the attitudes and ideals developed by young people during their years of schooling, was stressed by the Hon. Perren Baker, Alberta minister of education here Thursday evening at the closing exercises of the Camrose Normal school. The world owed nothing to young people of 19 or 20 years of age, Mr. Baker said, but the debt of students to the world is great. He urged the graduates to reflect on their responsibilities to the communities which they may serve.

Parents and relatives of students attended the closing exercises. In addition to Mr. and Mrs. Baker, the guests included also G. F. McNally, supervisor of schools, and Mrs. McNally, and Major A. D. Miller of Calgary.

In welcoming the visitors to the school's closing exercises, G. K. Haverstock, the principal, spoke particularly of the academic preparation of the class of 1931-32. This class, Mr. Haverstock said, due to the new restrictions placed by the department of education on Normal school entrance, was more thoroughly prepared academically than any class of previous years. The continuance of these restrictions he considered a step forward in teacher-training.

In the presentation of cups, school awards and medals, Mr. Haverstock gave special praise to the winner of the academic cup, Miss Dagmar Nelson. Miss Nelson, whose parents came to Canada from

Sweden 25 years ago, and who took her public school training at Battle Lake, and her high school training at Wetaskiwin, received this honor as well as honors in practice teaching. The Tickle Scott-Torrie memorial scholarships to the departmental summer schools, contributed by the Alumni association, were won by Margaret Scott of Viking and Madge York of Killam. Strathcona trust scholarships in physical training were won by Irene Vesivick of New Norway and Russell Bigelow of Camrose.

We have done all we can for you," Mr. Baker said during his address, "the world's in front of you, and out you go." The financial stringency at the present time might seem to make success an end difficult to attain, but if the difficulties facing the world are great, Mr. Baker reminded the graduates, so much greater are the opportunities for young men and women of fine purpose and high ideals.

WELL BLOWS IN WITH FLOW OF 11,000,000 FEET

Edmonton, June 10.—With a flow of 11,000,000 cubic feet of gas a day, well No. 24 was brought into production in the Viking gas field Thursday afternoon. Officials stated that this was the biggest producer in the history of the field.

The well surpasses the production mark of 9,500,000 cubic feet a day which was the record held by Hudson's Bay well No. 1.

New Community Park Located at Battle River

On Wednesday afternoon last, a happy band of neighbors gathered together to mark the opening of Battle River Community Park. This park has been recently purchased by M.D. Montgomery out of the second prize money received in the C.N.R. Community Progress competition. It is hoped the community will make good use of the park for recreation purposes. It is the best site anywhere along the Battle River for games, picnics and swimming.

On Wednesday afternoon a meeting was called under the chairmanship of E. B. Reimer, and a committee was selected to assist Councillor D. E. Humble in the management and building up of the park. Persons desiring to use the park should first communicate with Mr. Humble in order to avoid the clashing of two or more functions on the same date.

The committee elected were: Sanford Johnson, Harold Switzer and Raymond Harris.

The meeting discussed building operations which are necessary to make the park a desirable place; viz., fencing, dressing room, shelter benches and tables for serving lunches, tie rail for horses, a well at the spring for use of picnics, etc.

The name Battle River Community Park was decided on. Offers of voluntary labor were forthcoming.

On the conclusion of the meeting the ladies served a delightful lunch in the accepted picnic style.

Haultain U.F.A. have decided to hold their monthly meetings in the form of a picnic at the park. Indeed many people want to know why farmers cannot be the equal of the townsmen and take a half day holiday every week.

Unemployment Discussed
by Citizens of Cardston

(Cardston News)

No meeting ever held in the Alberta Stake went more fully into the conditions of the people, and tried harder to find remedies than did the Stake Priesthood Meeting held in the Tabernacle.

John S. Smith acted as chairman of the meeting, directing the discussion, after having introduced the theme himself, and after both George L. Stringam, M.P.P., and Mr. Giffin of the Agricultural Department had addressed the meeting for a brief time. These two gentlemen merely reaffirmed their belief in the stability of agriculture, and while Mr. Giffin made some concrete suggestions, they both left the field open for the discussion to follow.

The Situation and the Predicament

John S. Smith outlined the situation, and stated the predicament the people are now in. With 4400 people in the Alberta Stake, some 2500 of them are under 20 years of age, or 57 per cent of the people are under 20 years. The people are driven to the limit in taxation for schooling these children, only to lose them or a large percentage of them in the next few years. The past has shown that the people generally do not have ideas for the future, that they have not built homes, or barns, or sheds for their implements or stock, nor fences or corrals of a permanent kind, and discount and fault-finding have followed failure to establish permanent foundations.

The school system came in also for its share of blame for things as they are. The strenuous demands made by the school, the fact that five-sixths of the year is spent in school as consumers, and that when the students have completed the course they are divorced both in mind and attitude from agriculture as they are. The strenuous demands made by the school, the fact that five-sixths of the year is spent in school as consumers, and that when the students have completed the course they are divorced both in mind and attitude from agriculture as they are. The strenuous demands made by the school, the fact that five-sixths of the year is spent in school as consumers, and that when the students have completed the course they are divorced both in mind and attitude from agriculture as they are.

The discussion was led by Mrs. Grow, dealing with the vocational training question, followed by D. O. Wright on the housing and home-making problem, and concluded by Z. W. Jacobs on "Production and Conservation." Then the meeting was opened to those present for discussion, and many took part. The review of the discussion is divided into three heads: Vocational Training, Housing and Production and Conservation. Many other things were said, dealing notably with the question of industries that might be established, but this subject was so large and time so limited that Mr. Smith asked that this be not debated at present, and merely suggested that the committee had some fifteen different projects under consideration which would be proposed at an early meeting at some future date. He mentioned such possible industries as midge flour mills, cheese factories, more creameries, pea seed growing, sugar beet growing, head lettuce markets, small fruits for canneries, meat canning and home curing, knitting factory, hutcheries, brick kilns, fertilizer preparations, and several other things which might be projected.

The discussion then followed on the other line as follows: Vocational Training. The following suggestions were made by Mrs. Grow and several other speakers who talked to this subject. Summer school for girls along the line of nursing, cooking, etc., in which competent members of the community are engaged to teach the girls practical things in these lines under conditions as they might be found in our own communities. Manual training to be taught the boys by local men, such as carpentry, blacksmithing, shoe and leather repairing, upholstery, and in fact many of the trades, so that the boys may be able to do things around the home and in the home, and actually use the hammer, saw and square in constructing or helping their fathers to construct buildings on the farm or about the home. Gardening and agriculture generally to be taught the boys and girls right at home by competent men and women who are and have made a success of it, instead of paying taxes to educate the boys and girls to dislike farm life. Such a course or courses, and the provision for them, should be paid for out of taxes just as readily as to pay for book learning and theory. Beautify the home by doing the work yourself, and teaching the boys and girls to do it, such as kalsomining, papering, painting, etc., having taken time and trouble to study these things and teach them to the young people. Make home and its activities the centre of living.

Housing Conditions

Build adequate housing accommodation for the family. This is the first duty of every father and mother. Permanency and home life amid pleasant surroundings should be the objective. Barns, sheds, shelter belts, water supply, adequate heating and lighting in the home, and making the home beautiful by trees, lawns, flowers, gardens, shrubs etc., must be considered as the very essence of any stability of living conditions in this country. One-roomed houses must be replaced; open-air sheds and wire fences for barns must go by the way, and the old method of hauling water in barrels, or allowing the pigs and cows to eat up the garden and trample down the trees and muck up the door yard must not be repeated. These things lie at the bottom of the discussion of every speaker. Organizing tours of young people and older ones, for that matter, to go out over the district and see how many others are making a success of their operations is one way to get better conditions under way. Obtaining timber permits, and the establishing of community saw mills would supply lumber for buildings, which might be supplemented by the use of rocks found on every farm, just ordinary cobble stones answering the purpose well, in building substantial and adequate buildings on every farm. Gravel walks are delightful, and cost nothing but labor; and rock gardens, and even fences and wind-breaks may be obtained with little expense except labor. The only thing needed is the mental attitude and the objective and plans in view. Cisterns can be built inexpensively, and fresh adequate water supply for the house obtained even in the absence of wells or other supply. Every mother is entitled to water right in the kitchen, and a good supply of clean wholesome water is an essential in every home. Adequate light in the home, both of windows (not sacks or factory cotton), and lamps, with provision for privacy and study, are necessary and can be had in every home where the inmates have ambition and initiative.

IN THE GOOD OLD DAYS

—High flyers used to "take a drop" often; now they merely take-off and take a drop only once.

—People took a tonic when they were run down, now they usually take the ambulance or the hearse.

—Young people turned in at 8 p.m., now they turn in, and don't turn in until morning.

—Man wanted but little here below; now it's the woman who not only wants it, but also wears it.

—The most prominent part of an attractive girl was her bustle and frill; now its bustle and frill!

—There were no paid street cleaners; women pedestrian's trailing skirts did the job free and plenty.

—Daughters always helped their mother prepare dinner, but now they're usually not home even to help eat it.

—Mother used to put on more clothes when she disrobed to go to bed than her daughter does when she dresses to go out.

—The right way of living lengthened many a man's days; nowadays the right-of-way living shortens many another man's days.

—Women when fully doped up, wore about 25 pounds of clothes, now they display their charms in only a few ounces of "flicks."

—When any bad case was cured by laying on of hands, it was done by father or mother, and not by some perneginating "Professor."

—Women's most popular pastime in the shape of swinging a lawn tennis racket was flipping backwater cakes in a frying pan.

THE TIMID STENOGRAPHER

"Now, Miss Bloggs," boomed Jasper M. Whittle, Whittle Whirlwind Laundry Co., to his new stenographer.

"I see you want me to act as agent for the 'T' and 'H' for twenty thousand' an 'A' don't want me? Tell me who owns it? I'll tell you how you'll never get more than two thousand for it!"

"Now, Miss Bloggs," boomed Jasper M. Whittle, Whittle Whirlwind Laundry Co., to his new stenographer.

"I see you want me to act as agent for the 'T' and 'H' for twenty thousand' an 'A' don't want me? Tell me who owns it? I'll tell you how you'll never get more than two thousand for it!"

Conveniences in the home, both for sanitary reasons and for comfort are also essentials and can be obtained if the desire is sufficient, and that too without very much expense.

Production and Conservation. Plant shelter belts if you would have a good garden and small fruits. Plant trees also for utility and beauty. They are worth thousands of dollars on any farm.

Grow fruits, vegetables and everything needed for the table which it is possible to grow in this country, and then preserve these things in a clean and easily accessible cellar. Smoke or cure your meat, preserve eggs for winter, pit your carrots and parsnips in dry sand in the cellar, bottle the beans, dry the peas, keep the cabbage cool and dry, bottle the rhubarb in cold pack, keep wool and feathers, etc., for your own use.

Conserve moisture on the farm by windbreaks, and by furrows on hill-sides to keep the run-off water on the land and thus supply needed moisture for hay even on a dry farm.

Chop all hay as well as grain before feeding it, and by so doing straw may even be fed and the cattle will do well on it.

Secure the winter's supply of fuel during the summer, either by getting our wood, or by obtaining coal concessions, some men having obtained as much as 20 tons of good coal for actual cost in money of only \$5. Many people in this district have burned coal mined by themselves and thus solved the fuel problem during the past winter.

Change the system of taxation whereby taxes are payable on income instead of taxing the land. A per bushel tax, or a per pound tax on all produce, would supply ample revenue and leave the home-builder free from the threat of tax sales, and give all an incentive to build homes instead of rent-to-build for permanency.

The basic industry of this foothills country is livestock, and farmers should not dispose of their foundation stock, but rather hold tight until the prices are better when they will realize upon their present holdings. Now is the time to call out the boarders, and improve the quality of all animals kept. We are still too "wheat-minded," and must solve the feed problem rather than plant wheat and grains for selling.

Only GUTTA PERCHA TIRES Have
this WONDERFUL Extra FEATURE

ONLY tires made by Gutta Percha have Gum Cushions, broad pads of pure gum rubber built in between the layers of cord fabric to absorb battering, bruising road shocks.

This amazing feature of Gutta Percha Tires, which adds thousands of miles to tire life, was originated by Gutta Percha out of 49 years of experience in the rubber industry in Canada.

Even without Gum Cushions, Gutta Percha Tires would be unexcelled in quality or service by any other tire. With Gum Cushions, and at no extra cost to you, Gutta Percha Tires unquestionably give you the best value for your money that the tire market affords.

er, "I want you to understand that when I dictate a letter I want it written as dictated, and not the way you think it should be. Understand."

"Yes, sir," said Miss Bloggs, meekly. "I fired three stenographers for revising my letters, see?"

"Yes, sir." "All right—take a letter."

The next morning Mr. O. J. Squizz of the Squizz Flexible Soap Co., received the following:

"Mr. O. K. or A. J. something—look it up—Squizz, president of the Squizz—what a name—Flexible Soap Company—the kys—Montreal—that's in Quebec, ain't it?"—Dear Mr. Squizz: hmmm.

"You're a helluva business man. No, start over. He's a crook but I can't insult him, or the bun'll sue me. Quit chewing that pencil. The last shipment of soap you sent us was of inferior quality and I want you to understand, no, scratch out I want you to understand. Ah, unless you can ship, furnish, ship, no furnish us with your regular soap you needn't ship us no more period or whatever the grammar is, and please pull down your skirt. This damn cigar is out again, pardon me, and furthermore where was I? Nice boy you have baby."

"Paragraph. The soap you sent us wasn't fit to wash the dishes—no make that dog, with comma let alone the laundry, comma and we are sending it back period. Yours truly. Read that over, no never mind. I won't waste my time on that egg. I'll look at the carbon

copy tomorrow. Sign my name. And say, how about me and you going to lunch?"

Addressing an Eastern audience last week, J. W. Dafoe, editor in chief of the Winnipeg Free Press, declared that the problem of the West was one of finding a market for its wheat at a price that would repay the cost of a slight margin of profit, in the face of a world policy insistent on limiting contact with the outside world. The solution he didn't think was in the hands of the Canadian people, but in the lap of the gods.

Referring to the conflict of opinion between East and West over policies, Mr. Dafoe said: "It is not more cuss-

edness when we differ with you over certain fundamental questions of policy. The reason is, whatever the feeling of the East, we realize by knowledge and instinct that we must have contact with the outside world or we will suffer. The West has been developed to become the granary of the world, and it depends on contact. That is a matter of life and death to Western Canada, and I believe essential to the greatness of Canada."

The 40th Anniversary of "SALADA" TEA

For 40 years SALADA has given the finest quality in tea. Present prices are the lowest in 15 years.

The Mad Hatter's Economics

(From the New York Times)

"In that direction," said the Cheshire Cat, waving its right paw round, "lives a Hatter; and in that direction," waving the other paw, "lives a March Hare. Visit either you like: they're both mad."

"But I don't want to go among mad people," Alice remarked.

"Oh, you can't help that," said the Cat. "We're all mad here. I'm mad. You're mad."—From "Alice's Adventures in Wonderland."

"It's this way," said the Hatter, pouring himself a second cup of tea. "Our farmers produce too much wheat, our factories too many manufactured articles, our machines too many machines. We're so efficient that we're miserable. Surely you understand that?"

"I'm afraid I don't," said Alice. "For if there's plenty of food and other things, everybody should be comfortable."

"Prices have dropped terribly," continued the Hatter. "That's what depresses us so."

"That's no reason to be depressed," said Alice. "I thought people complained when prices were high, so if they're low you should all be happy."

"No," said the Hatter. "We produce so well with machinery that we have less and less need of labor. So the workmen can't earn wages

and can't buy goods, and the things the factories make can't be sold."

"(Then what's the good of making them?" wondered Alice.)

"We are very thrifty," the Hatter went on. "We save and pile up capital with which we build more and more factories, which become more and more efficient. The more efficient they get, the more they produce and the fewer men they employ. So their products glut the market and their machines create unemployment. We put so much capital into making goods that the consumer hasn't enough money to buy the goods when they are made."

"Oh, dear!" said Alice. "Doesn't anybody know what to do about it?"

"There are economists," said the Hatter, "who have seen what was happening and warned us. But they are only scholars who lecture and write books. The practical men who run things have no use for the academic mind. But they know the value of the boll weevil."

"What is it good for?"

"It eats up the cotton crop and keeps prices from falling," explained the Hatter. "Were it not for the boll weevil we should have magnificent crops, and then the South would be ruined."

"But what about the poor North which has too many factories, could not your boll weevil eat up some factories, too?"

"No," said the Hatter disdainfully. "Besides, we protect our factories with a tariff."

"Oh, I see!" exclaimed Alice. "Your tariff helps to sell the goods the factories make, doesn't it?"

"Not at all," returned the Hatter severely. "The tariff checks trade by closing markets. We close our markets against other countries; they close their markets against us. Each nation, you see, seeks a favorable balance of trade—that is, it tries to sell more than it buys."

"But what one nation sells another must buy," said Alice. She felt very sure of that. "Then how can they all buy less and sell more at the same time?"

"They can't," said the Hatter.

"They just destroy one another's trade and add to one another's suffering. Each nation wants to be self-sufficient, to do without the help of the others, because if there were a war the nation that could manage with the least imports would have an advantage."

"I hope there's no danger of war," said Alice.

"We have many treaties to insure peace—the League of Nations covenant, the Locarno treaties, the Kellogg Pact, arbitration treaties without number. But everybody is afraid of war and everybody arms. We are more heavily armed than when the last war started."

"How very strange," said Alice, though she did not want to seem impolite.

"No," said the Hatter. "For nobody has confidence in the treaties. Each knows that he will keep them, but he isn't so sure about his neighbor's."

"Then what's the good of making treaties?" asked Alice.

"Take another cup of tea," said the Hatter.

"Tell her the story of reparations," said the Dormouse, waking up and rubbing his eyes. "For that's what has caused the most trouble."

"The Germans were obliged to rebuild what had been destroyed," began the Hatter. "That was because they lost the war—"

"I suppose they sent workmen and materials and repaired the damage," interrupted Alice.

"Don't make foolish remarks," said the Hatter. "They were allowed to do so much that they would have deprived French builders of contracts and French workmen of jobs."

"Then the Germans paid to have it done?"

"That was impossible. They didn't have enough money or gold. The only way they could pay was in goods. But the creditors didn't want German goods and put up tariffs against them."

"They lent Germany money with which to pay. Then she had so much capital that she made her factories more and more efficient and produced more goods and employed less people, just like the rest of us. And now she has borrowed so much money that she's broke."

"If reparations are dead, why don't you abolish them?" asked Alice.

"That can't be done," said the Hatter, "because France won't agree and because the Allies must get reparations from Germany in order to pay their debts to America. These debts, too, must be paid in money from the sale of goods. But America has raised her tariff so as to limit the amount of goods she receives."

"Then how are the debts to be paid?"

"Nobody expects they will be paid," said the Hatter. "Yet we must act as though we thought they would be paid. One difficulty is that the debts change from year to year; so that the debtors must pay, not the amounts they borrowed, but much larger amounts."

"How can that be?" asked Alice.

"The debts are payable in gold, but actually the borrowers received goods, the prices of which were then very high. And what they pay back is not gold, but goods. But the prices of these goods have fallen; so in order to settle their gold debt the borrowers have to pay back about 50 per cent more than they borrowed."

Alice sighed and wondered whether anything ever would happen in a reasonable way again. "Can nobody do anything?" she asked.

"Well, nobody has done much," answered the Hatter.

"But isn't it important to do something?" urged Alice.

"Of course. It is extremely important. Everybody knows that," said the Hatter.

Then Alice remembered what the Cheshire Cat had said.

\$12,000 SPENT FOR GREENFEED AND HAY IN CAMROSE DISTRICT

Farmers in the immediate district that is, within a radius of twenty-five miles with Camrose as a centre have benefited to the tune of more than \$12,000 in the past two or three months through shipments of baled greenfeed and hay, bought and distributed by R. L. Rushton, acting on instructions from the department of agriculture in the Saskatchewan government. In reply to a recent inquiry, Mr. Rushton stated that 160 cars of hay have been shipped out of the locality. The price for the greenfeed varied from \$5.50 to \$6.50 per ton and the hay from \$7.00 to \$7.50 per ton. Instructions from the Saskatchewan government provided for the shipment of another ten or fifteen cars of greenfeed. So far as the greenfeed is concerned, many farmers consider the revenue from its sale in the nature of "found money," as many had a surplus which under some circumstances would have gone to waste.—Canadian.

Use The Times Want Ad. column.

There's even a difference in the

fresh aroma

KELOGG'S Corn Flakes have such a delicious aroma that you'd be sure to choose them if you compared them with others, just on the strength of opening the packages. And of course there's a big difference in the taste and crispness.

Kellogg's are the very best corn flakes possible to make and they are protected by a sealed WAXTITE inside bag that brings them oven-fresh to your table. This feature is patented!

Kellogg's guarantee you the highest quality and satisfaction. Look for the red-and-green package. Made by Kellogg in London, Ontario.

FINISHING OF BABY BEEF SUCCEEDING AT LACOMBE

Lacombe, June 11.—Success of a new venture in Lacombe district, finishing of red label baby beef for the British market out of surplus calves from southern Alberta ranches, was claimed Friday at the First Feeders' day ever held here. A tour of the district was made under the auspices of the board of trade and inspection of the fat yearlings made on six of the representative farms of the district by 250 people for the conveyance of which 60 autos were pressed into use.

There was concrete evidence that Lacombe, long known as one of the outstanding districts of Canada in the breeding of purebred cattle, has added to its mixed farming activities the intensive feeding of beef cattle, and with profit. The crowd heard from Charles Abbot that through fattening 100 Hereford heifers from the McIntyre ranch at Magrath, he had found "sale" for \$14.00 worth of feed at current market prices right on his own farm and besides had \$500 for his trouble, according to a weigh-up made Thursday.

Most of the stock was supplied by the Red Label Beef Growers' association under a district contract by which the farmers were guaranteed a minimum price of six cents per pound on every pound of weight added while on the feed lots. However, on the farm of Alfred Day there was seen a lot of 42 animals which had been purchased outright with their dams last August. They had made remarkable gains on dry grain in a boarded corral without a roof over their heads all winter. One expert valued these yearlings at \$50 per head, on current market prices. A full day was devoted to the tour of inspection and brief speeches were made by government representatives, livestock officials, ranchers and farmers. The day opened at the do-

minion experimental farm where the livestock was inspected. A barbecue beef dinner was served on the beautiful lawn of the Charles Abbot farm, and moving pictures of the best cattle industry on Alberta ranches, feed lots and overseas were shown at night in the theatre by W. H. McIntyre, of Magrath.

When speeches followed the picnic dinner, Hon. Irene Parby, on behalf of the government expressed gratification that success was attending efforts to finish, within the province, surplus ranch cattle and hoped the movement would grow.

H. A. Craig, deputy minister of agriculture, congratulated the district on going into the finishing of cattle on a large scale.

40TH ANNIVERSARY OF SALADA TEA COMPANY

Forty years ago this month in a unpretentious little building on Front Street in Toronto, the Salada Tea Company packed its first pound of tea. Founded in 1892 by the late Hon. William Peter Larkin, the business progressed very rapidly, and today, three of the largest and finest warehouses in the world, devoted exclusively to the packing of tea, stand as a memorial to the founder—located in Toronto, Montreal and Boston.

The Canadian market was controlled by China and Japan teas—the largest sale being China tea of poor quality. These teas were being sold from chests, exposed to air, dust, dampness, foreign odours, and so forth all detrimental to the quality of tea. In England, which was, and still is, the greatest tea-drinking country in the world, Ceylon and Indian teas of fine quality had practically displaced China teas, and it occurred to Larkin that Canadians also would prefer these finer teas. He consequently introduced a Ceylon and Indian blend to this Continent. He then conceived the idea of packing it in metal packages, in order that it would reach the consumer intact, with its flavour and quality unimpaired by dampness, store odours, etc. This step revolutionized the tea market on this Continent.

He sought a name for his product and decided on "Salada," which was the name of an old Indian tea garden. All that was left now was to tell the public about it. He wisely decided that the quickest and cheapest way to do this was by means of the newspaper. The result was so gratifying that he continued to use the newspapers as his chief advertising vehicle from that day.

He strove always to give the public the finest quality tea he could at the price and then advertise it for all he was worth. His achievement is the largest selling package tea in North America.

CANADA SUPPLIES ITS OWN BUTTER

Canada has developed in the past year into an important butter exporting country after supplying its domestic requirements, amounting to about 217,000,000 lbs. instead of having to import butter for its own requirements as in former years. Canada in 1931 is estimated to have produced 224,661,940 lbs. of butter, of which she exported 10,680,500 lbs. Her imports were comparatively negligible to that of other years, amounting to only 2,821,217 lbs. In 1930 the estimated domestic consumption of butter was around 223,000,000 lbs., with domestic production amounting to 185,751,061 lbs., and exports to only 1,180,400 lbs. In that year Canada imported 35,696,655 lbs.

BABE BAPTIZED UNDER CROSS

The following description of a Ku Klux ceremonial comes from the Provost News:

Wild and eerie was the scene at the christening of Cecil Albertina Georgina Buton, of Ribstone, at Chauvin Wednesday night. In a chilling biting wind, under a moonless sky and in the full glare of a fifty-foot fiery cross amid a sea of up-turned faces this tiny mite of humanity received its name and was sprinkled with water—said to have been brought from the river Boyne in Ireland—by Rev. W. H. Zook, of Provost, atop of a farm truck on a knoll in Chauvin sports grounds. Immediately thereafter, the national anthem having been sung by the thousand people in the crowd, the late was declared an honorary member of the Ku Klux Klan by J. J. Maloney, the speaker of the evening.

Maloney who had been introduced by A. Millar, M.L.A., of Biggar, as the man who put the Anderson government into power in Saskatchewan, held the attention of the crowd with a lively speech. He wasn't opposing individuals, he said, but a system; and he pleaded for one flag, one school, one language—and things like that. He particularly desired free speech and a free untrammelled press. The fiery cross was a huge pole 60 feet high and with 29-foot cross arms, all wrapped with burlap and soaked with various combustibles. As the

A Great War! A Great Pestilence! A Great Depression!

4 ALL within twenty years. Could there be a more gruelling test?

4 Yet life insurance stands invincible. During that whole period it paid every obligation promptly and fully—as it has ever since the Dominion was formed.

4 The Sun Life Assurance Company of Canada itself paid to policyholders and beneficiaries in cash during these periods—

The War (1914-1918)

The Flu (1919)

The Depression (1930-1931)

—over \$226,000,000. It has paid to its policyholders and beneficiaries since formation nearly \$600,000,000.

In prosperity, life insurance is valuable; in adversity it is indispensable. The protection of your home, the security of your business, the comfort of your old age, depend first on adequate life insurance.

Have you enough?

Consult a Sun Life man

Sun Life Assurance Company of Canada

crowd in unison sang "Nearer My God to Thee," a Mr. White put a light to the foot of it, and the flames billowed up and outward, lighting the prairie over a wide area. The gathering was quite orderly and peaceable. In a community such as ours, one asks the question, "What does this stuff mean? Is there any need for

the Ku Klux Klan? Are there parts of our Province in which the proper authorities have not been able to handle conditions?"

At least the above incident must have been a little tough on the baby.

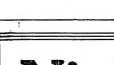

Advertisements in the paper that circulates all over the district thoroughly.

While Doing Her Housework Would Fall Down In A Faint

Mrs. L. Steinberg, Leslie, Sask., writes:—"Two years ago I started to get nervous headaches and dizzy spells, and sometimes I would fall down in a faint while doing my housework."

"I was getting to be a nervous wreck when a friend told me about Milburn's Heart and Nerve Pills. After I had used the first box I was almost free of the fainting spells, and after using the second box I was absolutely relieved. These pills are a wonderful medicine."

Price 50c. a box at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FALUN

The Falun W.I. met at Mrs. C. Isaacson's on Saturday last, with a good attendance of members and several visitors. After the business meeting, a dainty luncheon was served on the lawn by Mrs. Isaacson, Mrs. Steedman and Mrs. Rattray. The next meeting will be held at Mrs. Cronin's on July 2nd.

The dance at Ma-Me-O hall was a decided success according to the large crowd in attendance.

A very good softball practice was held at Falun on Sunday last between Pigeon Valley and Falun girls. Grandma Sjordlund of Lone Ridge district, was a visitor at the Lindstrom home on Sunday last.

The Falun athletes returned Wednesday evening from the Ponoka sports meet, with eighteen honors of first, second and third merit.

KNOB HILL

BORN—To Mr. and Mrs. Joe Myers on June 4th, a son.

Newton and Edgar Eliason made a trip to Pigeon Lake last week.

Mrs. B. Liljquist of Los Angeles, spent a few days in the district visiting with friends.

Gunnar Carlsson has moved all his things to H. Carlsson's place, where he plans to make his home for a while.

Another baseball practice was held on Sunday in Rathgeber's field.

BITTERN LAKE

Mr. and Mrs. Gus Holmstrom, Mr. and Mrs. Howard, and Miss Jarvis, all of Edmonton motored down Saturday to visit over Sunday with Mrs. N. Holmstrom and family.

Lefty Treleven spent the week-end at his home here.

Mr. and Mrs. Hanson and family, and O. Nelson, all of Benalto, Alta., motored up Sunday to visit with Mr. and Mrs. Edwin Johnson.

Edgar and Vic Alm are busy load-

ing a car of implements. They are leaving for Peace River Tuesday to do improvements on their home-stands. They will be back for harvest.

The Young People's Society of Wetaskiwin, held church service in the hall Sunday afternoon, and a splendid program was rendered.

Mrs. Ed. Johnson and daughters, and Mrs. J. Treleven and daughter, attended the funeral of the late Rev. Gardner in Camrose Saturday afternoon.

Spring work is completed in this district and the crops are looking fine.

Wm. Altwater of Wetaskiwin, spent a couple of days with his son, Wm., here.

Mr. and Mrs. Frank Hellingthorn of Edmonton motored down to spend Sunday with Mr. and Mrs. Chas. Howarth.

NAVARRE

All the farmers are agreed that this is an unusually rapid growing season. Both crops and gardens in this district are sources of pleasure and pride to their owners.

Harding Asp of Wetaskiwin, has been making a tour through here inspecting crops against hail. We presume he made out a large number of policies, as "children once burned, dread the fire."

On Thursday evening about one hundred friends gathered at the home of Mr. and Mrs. Maurice Fonteyne, who were married recently, and held an enjoyable surprise party in their honor.

After staging an exceedingly noisy arrival, the guests offered their congratulations and then proceeded to enjoy themselves at games. Refreshments were served, and Mr. and Mrs. Fonteyne were presented with a large number of beautiful and useful gifts.

Baseball fans from this district watch with pride the performance of our two local boys, Helge Lundell and Gus Kotivik, who play on the Wetaskiwin team. They are certainly a credit to Navarre.

Mr. and Mrs. G. W. Malmes were Edmonton visitors on Wednesday.

Mrs. Nelson, Sr., David Armstrong, the Misses Chlois and Frances Nelson, Mr. and Mrs. Geo. Van Deusen, Oscar Dahl and Mr. and Mrs. C. C.

Warren.

H. G. Young of Millet, was a visitor in this vicinity recently.

Their many friends and relatives are welcoming back Mr. and Mrs. Tait. Mr. Gibbons and Dorothy Gibbons, from Spokane.

Mr. McElroy of Daysland, who has purchased the C. P. Taylor place south of town, was here last week.

On the occasion of her fifteenth birthday, a surprise party was tendered Miss Iola Warner, at the home of her parents, Mr. and Mrs. H. S. Warner, Neispur. Over forty people attended, and many nice gifts were received.

A delicious birthday cake, bearing fifteen candles, was the "piece de resistance" at supper. Messrs. Chas. Warner, J. Ratcliffe, E. A. Taylor and J. E. Thrasher, Jr., and Miss Richarda Husband were the musicians.

Mrs. Hay spent a few days in Edmonton last week.

Miss Lenore Husband, accompanied by Miss June Penosky and Mr. Richard Payne of Botha, spent the week-end here.

The second of the series of dances given under the auspices of the Fraser hall team, held in Norbach school, was even more of a success than the first. The floor was crowded, particularly after the cars from Breton arrived. Mr. Powell acted as M.C. in his usual able manner. The prize waltz was won by Mr. and Mrs. Hubert Warner, which was a very

popular choice. The judges, Mr. Powell, Mr. Paul Nelson and Mrs. Taylor, had great difficulty in arriving at their decision, there being so many graceful dancers.

Mr. Thrasher left for Edmonton on Saturday to visit her daughters there.

The teacher and pupils of Winfield school, had a field day Friday afternoon.

WINFIELD U.F.A.

A special meeting was held by Winfield local, Wednesday evening, at the home of Mr. and Mrs. C. A. Stady for the purpose of planning the annual picnic. July 8th was set as the date, and the following committees were appointed: Sports and grounds, J. A. Abbott; refreshments, L. T. Francis; and dance, S. Handbury.

It was also arranged that there would be transportation for any who wished to go to Buck Lake Friday night and attend the dance at Minnehik.

One of our members, Mrs. Gintner, has just received word of the death of her mother in Montreal. We extend our sympathies.

GIRL IS ARRESTED AS RESULT OF CRASH NEAR MORINVILLE

Jessie Nystrom, one of the occupants of the car from which William Ashcroft, was killed by his death on Saturday afternoon near Morinville, when the vehicle turned over, was arrested by R.C.M.P. officers on Monday and is being held in jail on a charge of manslaughter.

It is alleged by the R.C.M.P. investigators that Miss Nystrom was driving when the accident occurred; that Ashcroft, who was beside her, became alarmed at the terrific speed of the car and attempted to take control and that the accident then occurred.

BATTLE LAKE

Mr. and Mrs. Carmichael and Miss Marie Carmichael of Stony Plain, spent the week-end at Battle Lake as guests of Mr. and Mrs. W. B. Fullerton.

A carload of people from Battle Lake attended the Children's Day service at the Brightview Church on Sunday.

Mr. and Mrs. Dan Nicholson and Glen Carmichael of Wenhau Valley, spent Sunday here.

A very exciting game of baseball was played on Sunday afternoon between Battle Lake and Antross, the score being 10-8 in favor of the visiting team. A number of rooters from Antross, Breton and Pigeon Lake, as well as a large number from Battle Lake, were there to encourage the boys. Ed. Nadeau made a very satisfactory umpire.

A picnic in honor of Mr. and Mrs. Carmichael was held after the ball game on Sunday, when the ball team and about 40 others thoroughly enjoyed the feast provided by the ladies. Mr. and Mrs. Carmichael left Monday for their home in Stony Plain.

Mrs. Hawney and son Arthur arrived here last week, having motored through from Seattle. They expect to remain here permanently, and their many friends are glad to welcome them back. Mr. Hawney has been here since early spring.

WINFIELD

A Sunday school has been organized and will hold its first meeting at Mrs. C. P. Taylor's next Sunday, at 2:30 p.m. The Sunday school Mission Workers, Edmonton Diocese, (Church of England) were in town last week and held Sunday school and Evensong in the school house on Sunday last.

Mrs. B. A. Stady, Jr., and Keith have returned from Wetaskiwin, where they were guests of Mrs. Stady's parents, Mr. and Mrs. J. A. Hallgren.

H. G. Young of Millet, was a visitor in this vicinity recently.

Their many friends and relatives are welcoming back Mr. and Mrs. Tait. Mr. Gibbons and Dorothy Gibbons, from Spokane.

Mr. McElroy of Daysland, who has purchased the C. P. Taylor place south of town, was here last week.

On the occasion of her fifteenth birthday, a surprise party was tendered Miss Iola Warner, at the home of her parents, Mr. and Mrs. H. S. Warner, Neispur. Over forty people attended, and many nice gifts were received.

A delicious birthday cake, bearing fifteen candles, was the "piece de resistance" at supper. Messrs. Chas. Warner, J. Ratcliffe, E. A. Taylor and J. E. Thrasher, Jr., and Miss Richarda Husband were the musicians.

Mrs. Hay spent a few days in Edmonton last week.

Miss Lenore Husband, accompanied by Miss June Penosky and Mr. Richard Payne of Botha, spent the week-end here.

The second of the series of dances given under the auspices of the Fraser hall team, held in Norbach school, was even more of a success than the first. The floor was crowded, particularly after the cars from Breton arrived. Mr. Powell acted as M.C. in his usual able manner. The prize waltz was won by Mr. and Mrs. Hubert Warner, which was a very

popular choice. The judges, Mr. Powell, Mr. Paul Nelson and Mrs. Taylor, had great difficulty in arriving at their decision, there being so many graceful dancers.

Mr. Thrasher left for Edmonton on Saturday to visit her daughters there.

The teacher and pupils of Winfield school, had a field day Friday afternoon.

WHEAT CONDITION

Harvesting of winter wheat has commenced in Texas and Oklahoma, and the crop is ripening in southern Kansas. The first carload of 1932 wheat was shipped from Oklahoma to Wichita, Kansas, on June 2nd.

Private estimates on June 1st placed the U.S. winter wheat crop at around 43 million bushels.

The spring wheat states have had fairly favorable weather and the U.S. spring wheat crop is estimated at 250 million bushels, or nearly 150 million bushels above last season's short harvest.

VERDUN U.F.A.

After the members had enjoyed games of horseshoe and softball until dusk the Verdun U.F.A. monthly meeting was held at the school on Wednesday, June 8th. The merits and demerits of various weed poisons were discussed, efforts to be made to purchase co-operatively.

Delegate D. E. Widen and director H. Benhin are to attend the U.F.A. convention at Ponoka on June 21st. Two resolutions were unanimously passed, to be sent to this convention, the first passed being that the U.F.A. central Cooperative Association and the U.F.A. Co-operative Store be urged to pool their buying power to the greatest possible extent; while the second resolution stated that the joint publication of the U.F.A. and the Alberta Labor News were to be to the best interests of all concerned.

Councillor Humble answered a number of questions regarding Municipal affairs. After adjournment, the ladies served a greatly appreciated luncheon.

A shipment of 40,000 Loch Leven fish fry from the Banff hatcheries was planted in Pigeon Lake a week ago. They arrived in excellent condition. Mr. Mitchell, M.L.A. for the constituency, informs us that the introduction of Loch Leven trout into Pigeon Lake represents the continuation of experiments begun last season for getting game fish in some of the larger lakes of the province. The results of this planting will be watched with interest by sportsmen throughout the country. — Thorby Correspondent.

Considerable excitement was created in the A. E. Cafe on Thursday evening, when a vessel containing ammonia gas was placed on the stove in the kitchen. As a result of a defective part, the vessel exploded, landing the stove lids in a pan containing dishes nearby, and at the same time causing the loss of a large quantity of chop suey, which fell from the table from which it was being consumed. So strong were the ammonia gas fumes that the establishment had to be closed to business for a short time.—Rimby Record.

New regulations affecting the operation of motor trucks in Alberta, have been issued by the department of public works to take effect immediately. One of the regulations is that no truck shall travel at more than 28 miles per hour on any Alberta road.

WEEKLY STOCK MARKET REPORT

The following is a report from the Edmonton Stock Yards, as supplied to the times for the week ending June 14th.

Receipts: Cattle, 512; Calves, 168; Hogs, 1767; Sheep, 316.

Trading this week has slowed down materially as buyers are showing an indifferent attitude in their demands are bearish in their ideas, and are bidding out 25c per hundred lower than the close of last week. This is especially true of all classes of grass cattle, which apparently buyers do not want, and which are particularly hard to move at lower values. Farmers would be well advised to keep back any grass cattle until they are carrying more flesh and finish. The following are the prices:

Bulk of good fed calves quoted at \$5.25 to \$5.50; fair to medium kinds \$4.25 to \$5.00; good butcher steers \$4.75 to \$5.25; medium \$4.25 to \$4.50; and common to fair from \$3.00 to \$4.00 and as low as \$2.50 for undesirable. Good heavyweight heifers \$4.50 to \$4.75; mediums \$4.00 to \$4.25; good heavies \$3.25 to \$3.50, and common to fair from \$2.50 to \$3.25. Good to choice butcher cows \$3.00 to \$3.50; common to medium \$2.00 to \$2.75; canners and cutters \$1.00 to \$1.75; bulls \$1.00 to \$1.50, and hard to move.

Stockers are showing a weaker undertone. The general run of good stockers going at \$3.00 to \$3.25; common to medium \$2.00 to \$2.75; stocker cows from \$1.75 to \$2.25.

The calf market is inclined to be decidedly slow and dull, with the general run of good weaners so far this week selling around \$4.00; mediums \$3.50 to \$3.75; and common to fair from \$2.50 to \$3.00.

Hog market unsettled. Today, Tuesday, buyers bidding \$3.25 for the trucked in hogs. No loads on. Selects bringing a premium of 50c per hundred, and butchers discounted 50c per hundred. The cuts on off-grade hogs remain the same, and are as follows: Heavies discounted 75c per hundred; extra heavies discounted \$1.25 per hundred; No. 1 sows discounted \$1.25 per hundred; No. 2 sows \$1.75 per hundred; roughs discounted \$2.00 per hundred, and slugs \$2.00 per hundred.

There is an indifferent tone on the sheep and lamb market. Prices holding barely steady. Spring lambs quoted at \$7.00 to \$8.00; yearlings \$4.00 to \$4.50, and ewes \$2.50 to \$3.50.

FAVORS PROVINCIAL CONTROL OF CORPORATION ACTIVITIES

Ponoka, June 15.—Provincial government control of the activities of corporations as a safeguard against the interests of producers was advocated here Tuesday evening by Premier Brownlee. The premier was addressing a public meeting following the annual meeting of the United Farmers of Alberta organization for this constituency, which he represents in the legislature.

The premier stipulated the prevalent depression to the effects of the war and to the period of inflation through which the world passed prior to 1929. It was world wide in its scope, he said, claiming that, comparatively speaking, Albertans are in fortunate circumstances.

He described efforts of the provincial government to cope with the situation, telling of the economies effected and explaining that the administration is endeavoring to keep its expenditures within the total of receipts. For this reason, the policy of allowing farmers to "work" out their taxes, was opposed.

Premier Brownlee summarized the work of the government, telling of its efforts to solve the unemployment problem and of its work in connection with the gas conservation in Turner Valley.

He claimed that among the provinces, Alberta enjoys the soundest financial standing. Discussing monetary matters, he remarked that he favored the debt adjustment board in preference to any other scheme of similar nature. He remarked that during Tuesday, mortgage companies had announced that for one year they would make no foreclosures without the approval of the debt adjustment board, that there will be no foreclosures for principal of ill-health, has been forced to when interest payments are being retira.

met and that the firms agreed to the board's crop payment plan. Resolution of confidence in the provincial administration was passed by the meeting.

Earlier in the day the U.F.A. convention had passed resolutions opposing the compulsory placing of lights on all vehicles on the highway after nightfall and urging that the motor license fee be made nominal only and that gasoline tax be increased to make up the difference. This, it was felt, would be more equitable than the present practice of charging a fixed fee regardless of the amount of use made of the vehicle for which the license is issued.

Officers for the year were elected as follows: president, Roy Wold; vice president, W. Hoar; secretary-treasurer, J. E. Kretting. A vote of appreciation was passed to Mrs. Russell, who has been secretary-treasurer since the inauguration of Ponoka U.F.A., and who, on account of ill-health, has been forced to when interest payments are being retira.

MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by "The Land Titles Act" under a certain mortgage which will be produced at the time of the sale.

There will be offered for sale by public auction at the Post Office in the City of Wetaskiwin in the Province of Alberta, on

SATURDAY, JULY 9th, A.D. 1932 at the hour of 2:30 o'clock in the afternoon, the following property namely:

The North West Quarter of Section 10, Township 46, Range 22, West of the 4th Meridian, containing 160 acres, excepting thereout 3.96 acres for right of way of Calgary and Edmonton Railway; 1-1000 of an acre for a roadway, and all coal.

Terms of sale to be ten per cent cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor for the current year.

The above property will be offered for sale subject to a sealed reserved bid and free from all encumbrances, save taxes for the current year.

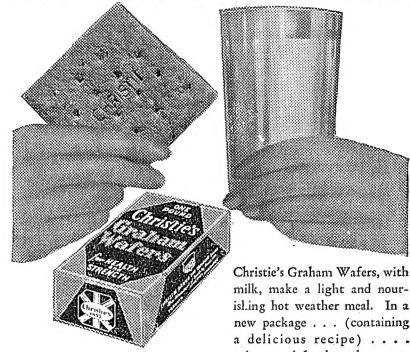

The vendor is informed that the above property is situated about half a mile from which point is the nearest Post Office, Grain Elevator and School. The land contains approximately 163 acres of which about 25 acres are waste land, 100 acres have been under cultivation and a further 20 acres could be broken. The soil is black loam with clay and gravel subsoil. The land is completely fenced.

For further particulars and conditions of sale, apply to Messrs. Newell, Lindsay, Emery & Ford, Barristers, Canada Permanent Building, Edmonton, Alberta.

Dated at Edmonton in the Province of Alberta this 1st day of June A.D. 1932.

JUST AS GOOD!

Ask Yourself—Is It?

When you ask for a certain line of goods, a line which you have seen advertised in newspapers—and you are told "Here is something just as good and cheaper," it is time to do some thinking. If there is more profit in selling goods not advertised and you are buying at a saving, there must be something wrong somewhere—and usually that is loss of quality—something left out that is THERE in the advertised commodity you originally asked for.

It is well to remember that a manufacturer invests his good dollars in advertising space because he knows his product is right. The fact that he advertises in newspapers so that "he who runs may read" is evidence that he knows his claims are right, and that he is ready to stand behind his merchandise and the stores that sell it.

**ASK FOR AND GET NATIONALLY

CITY OF WETASKIWIN

NOTICE TO PROPERTY OWNERS AND ALL CONCERNED

The City Council of Wetaskiwin gives notice that it intends to pass a Bylaw at its regular meeting on the 21st of June authorizing the closing of the lane running East and West through Block 85, Plan 5573AB, between lots 1 to 7, and lots 28 to 34. Any person claiming that his land will be injuriously affected or who is otherwise interested should petition the Council accordingly and he will be given an opportunity to be heard at the said meeting. J. E. FRASER, City Clerk.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of VICTOR TULOKAS, late of the Post Office of Brightview, in the Province of Alberta, Farmer, Deceased.

Notice is hereby given that all persons having claims upon the Estate of the above-named VICTOR TULOKAS, who died on or about the 7th day of April, A.D. 1932, are required to file with Amelia Tulokas, of the Post Office of Brightview, in the Province of Alberta, Executrix, or with the undersigned Solicitors for the 28th day of July, A.D. 1932, a full statement duly verified of their claims, and of any securities held by them, and that after that date the Executrix will distribute the assets of the Deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to her knowledge.

Dated this Fourth day of July, A.D. 1932.

ODELL & RUSSELL, Solicitors for the Executrix, 13-1tn Wetaskiwin.

In the Matter of "The Public Utilities Act, 1923"

AND IN THE MATTER OF certain applications for the separation of land from the City of Wetaskiwin.

Application having been made by Jennie Lewis; Creed F. Pennington; Annie Ward; Lucia Margaret Smith; Don A. Jackson; Effie M. Wager; John MacAllister; Lee G. Kelley; August Gens; Adrian Kallier, Senior; William Bell and Lloyd Kirk, all of Wetaskiwin, in the Province of Alberta, to the Board of Public Utility Commissioners, under the provisions of Part VI. of "The Public Utilities Act, 1923," for the separation of certain lands from the City of Wetaskiwin, and from the number of petitions for separation and other facts which have come to the notice of the Board in connection with said petitions, it seems expedient to the Board that a general plan should be formulated, in accordance with the powers given said Board under Section 123 of said Act. NOTICE IS HEREBY GIVEN that the Board of Public Utility Commissioners has appointed Tuesday, the Twenty-eighth day of June, A.D. 1932, at the hour of 10:30 o'clock in the forenoon, at the offices of the Board, Land Titles Building, Edmonton as the time and place for the hearing of all parties interested in regard to the formulation of a general plan as before mentioned.

Dated at Edmonton, this tenth day of June, A.D. 1932.

SPORT

RATTLESNAKE PITCHING IN EDMONTON

Jimmy Rattlesnake, the full-blooded Cree Indian from the Bob Tail reserve, who pitched the Royals to their Sunday win, made a instant hit with the big crowd of fans that filled the park. He has pitched on and off with Ponoka and one or two other teams in the central part of the province, but yesterday was his first appearance in the city senior loop. His performance stamped him as a hurler with a future if he is properly coached and developed. The tall Indian chucker is only 20 years old. His game Sunday was his first before a big crowd, yet he never lost his head for a moment and handled all his fielding chances like a veteran. His father, a member of the Ermine's hand of the Cree tribe, is deaf and dumb.—Journal.

IMPERIALS BEAT ATHLETICS

The best baseball game witnessed on the Wetaskiwin diamond for a long time took place on Saturday evening, when the Imperials, one of the best Edmonton teams, played an exhibition game with the Wetaskiwin Athletics. Had it not been for a couple of costly errors the score would have been a tie, instead of a 3-1 victory for the visitors. The game was featured by heavy hitting and very snappy outfielding. One of the nicest plays was a long throw by Aicher from left field, which beat the runner at first. Following is the box score:

Imperials:	AB	R	H	PO	E
Maher, c.....	4	0	1	4	0
R. Dolingham, 2b.....	4	0	1	1	0
Robinson, c.....	4	0	0	2	0
Horn, 1b.....	4	0	0	14	0
Maher, 3b.....	2	1	2	1	0
McGillis, lf.....	4	0	0	1	0
McHugh, rf.....	4	1	0	2	1
E. Dolingham, ss.....	4	0	0	2	1
Berg, p.....	3	1	1	0	0
	33	3	5	27	2

Wetaskiwin:	AB	R	H	PO	E
McFaul, rf.....	4	0	0	5	0
Clelland, ss.....	3	0	0	3	0
Lundell, c.....	3	0	1	6	0
Lewis, cf.....	4	0	0	2	0
Sutherland, 2b.....	4	0	0	0	1
Ryan, 1b.....	4	1	1	6	0
Aicher, lf.....	4	0	1	2	0
Thirsk, 3b.....	3	0	2	0	0
Farwell, p.....	3	0	0	1	0
	32	1	4	27	3

Left on bases—Imperials, 7; Athletics, 6.

Two base hits — Maher, Ryan, Aicher.

Bases on balls—Off Farwell, 4; off Berg, 2.

Umpire—C. Gouchie.

Another interesting game took place on Friday evening, when the Athletics defeated a team from Camrose by the score of 3-1. Clelland was in the box for seven innings, and Rotvik finished the game, while Brick was on the mound for the visitors. C. Gouchie gave very good satisfaction as umpire. The following is the lineup:

Camrose: Roseland, c; Brick, p; Jassman, 2b; Larson, cf; A. Jassman, 3b; Middleton, lf; H. Larson, ss; Amesley, 1b.

Wetaskiwin: McFaul, cf; Clelland, ss; Aicher, 2b; Lundell, c; Ryan, 1b; Thirsk, 3b; Treleven, rf; Farwell, ss; Farnham, lf.

A large crowd of fans turned out on Monday evening to witness the game between Bawlf and the Athletics, but the game did not prove to be as peppy as the one played on Saturday evening. Mosand was the twirler for Bawlf, and he struck out six, while Rotvik, the mound artist for Wetaskiwin, also retired six by the strike-out route in the seven innings he pitched. Clelland who finished the game, struck out two in favor of Wetaskiwin. The lineup was:

Bawlf: Molstad, cf; Riley, 2b; Mosand, 3b; Gies, cf; Kirkpatrick, 1b; Clarence Soberg, 3b; Gillespie, lf; Cliff Soberg, rf; Mosand, p.

Wetaskiwin: McFaul, cf; Clelland, ss; Aicher, 2b; Lundell, c; Ryan, 1b; Treleven, rf; Rotvik, p; Farwell, lf; Thirsk, 3b.

JUST A MINUTE

I have only just a minute. Only sixty seconds in it. Forced upon me, can't refuse it. Didn't seek it, didn't choose it. But it's up to me to use it. I must suffer if I lose it. Give account if I abuse it. Just a tiny little minute. But Eternity is in it.

Use The Times Want Ad. columns.

WETASKIWIN ATHLETES WIN SEVERAL PRIZES AT PONOKA

Ponoka, June 9.—Over sixty entrants competed for the various athletic events in the central Alberta men's and women's track and field meet held in Ponoka, Wednesday, sponsored by Ponoka Sports association. Ideal weather gave added enjoyment to a large number of interested spectators.

The outstanding event, in which a new Alberta record was set, was the junior men's 800 metre race, won by N. S. Holt of Bawlf, who covered the distance in 2 minutes 5 3/5 seconds, the old record being 2 minutes 10 2/5 seconds.

Winners are as follows: 5 lb. shot put, women's senior—Florence Deatrich, 26 ft. 10 in. Running high jump, senior, men—E. Markle, 4 ft. 10 1/2 in. Running high jump, junior—Harry Moore, 4 ft. 9 3/4 in. 12-lb. shot put, senior, men—Ivor Skoog, 13 ft. 3 in. 12-lb. junior shot put, men—R. Miquelon, 31 ft. 7 in. Women's javelin throw, senior—Stina Karlsson, 74 ft. 5 in. Women's javelin throw, junior—Thilla Sebastian, 87 ft. 5 in. Running high jump, women, junior—Alice Macdonald, 4 ft. 3 3/4 in.

Men's javelin throw, senior—Ivor Skoog, 131 ft. 2 in. Men's javelin throw, junior—R. Miquelon, 111 ft. 2 in. Women's discus, junior—Nettie Anderson, 39 ft. 9 in. Men's discus, senior—Ivor Skoog, 115 ft. 2 in.

Hop, step and jump, women, junior—Edna Moore, 30 ft. 3 3/4 in. Pole vault, men's, senior—Forest James, 9 ft. 1 1/2 in. Pole vault, men's junior—N. S. Holt, 9 ft. 1 1/2 in.

Running broad jump, women's, junior—Edna Moore, 15 ft. 1 3/4 in. 500 metres, senior, men—H. Sanddal, 19 min. 20 secs. 100 metres, junior, men—William Saunders, 12 secs.

100 metres, senior, men—Charles Lewis, 11 3/5 secs. 110 metre hurdles, senior, men—Bennie Holt, 19 secs. 110 metre hurdles, junior, men—N. S. Holt, 17 secs.

100 metres, women's, junior—Alice Macdonald, 13 3/5 secs. 800 metres, senior, men—E. W. Cornack, 2 minutes 15 2/5 secs. 800 metres, junior, men—N. S. Holt, 2 minutes 5 2/5 seconds. (Alberta record.)

200 metres, men's, senior—E. Markle, 32 2/5 secs. 200 metres, men, junior—Ed. Holt, 25 2/5 secs. 400 metres, senior, men—E. Markle, 55 2/5 seconds.

WETASKIWIN FOOTBALL CLUB

The Central Alberta League schedule for this season is as follows. First named team is home team: June 8—Ponoka vs. Wetaskiwin June 10—Camrose vs. Ponoka June 14—Wetaskiwin vs. Camrose June 17—Wetaskiwin vs. Ponoka June 21—Ponoka vs. Camrose June 24—Camrose vs. Wetaskiwin June 28—Ponoka vs. Wetaskiwin July 5—Camrose vs. Ponoka July 8—Wetaskiwin vs. Camrose July 14—Wetaskiwin vs. Ponoka July 19—Ponoka vs. Camrose July 21—Camrose vs. Wetaskiwin

The next game here will be Friday, June 17th, with Ponoka for the opposition. Kickoff at 7:30 in each case.

Another bogus 50-cent piece has been added to the increasing pile of the "phony" coins in the city police detective department offices, as the search goes on for the coiners of the spurious half-dollars.—Edmonton Journal.

Trade with the merchants who advertise in this paper.

Visitors included, beside club

members, Frank Reed, superintendent at Lacombe experimental farm and H. E. Wilson, livestock specialist there; Professor R. B. Sinclair of the university; Principal Elliott of Vermilion Agricultural School; Percy Switzer, master farmer, Lacombe; Charles Abbott, Lacombe farmer, at whose place the Feeders' Day crowd held their barbeque lunch on the previous day; and S. G. Gaulty.

A proud onlooker at the happy lawn party which closed a perfect summer day was Mrs. Ballhorn Sr., who came to the district 31 years ago and whose three sons and married daughters were present.—Journal.

Lacombe, June 11.—A miniature crime wave visited the country west of Lacombe when the Garries' hardware store at Bentley was broken into and robbed of some \$50, and the Aspen Beach grocery, owned by Otto Voellner, at Gull Lake, was looted of \$75 on Thursday night.

While the tide of prosperity appears to be against the smaller towns, it behooves the business men of the better towns to make every effort to extend their trading area. The modern automobile makes it possible for the country customer to cover distances considered much too lengthy a few years ago.

R. BALLHORN HOST

(Continued from Page 1)

ported stock on the Prince of Wales ranch. A sight new to most stockmen was a calf born without a tail but otherwise a fine animal.

After a delightful home-cooked meal on the lawn, visitors inspected the other fine livestock and the well equipped farm buildings.

SOFTBALL

A couple of softball games were played in Wetaskiwin Sunday afternoon, when the Orangemen defeated Ponoka by a score of 11-0, and an Edmonton team defeated a Wetaskiwin team by 15-1.

The Clerks defeated the Northern Drug team on Tuesday night, the score being 11 to 5. The next softball game to be played is on Thursday night, between the Clerks and Orangemen. The following is the standing of the League at the present time:

	P	W	L	PC
Orangemen.....	2	2	0	1000
Northern Drug...	4	2	2	500
Clerks.....	4	2	2	500
Bankers.....	4	1	3	250

A very interesting game was played in connection with the Moose Lodge on Thursday, June 9th, the teams consisting of city members vs. the country members, the score being 11-9 in favor of the country team.

A return match will be played in the near future, when the city team feel confident they can place the hayseeds where they belong. Quite a number of spectators were present. From a spectator's point of view the umpire handled the game very well. The city team think it might be advisable to have a change for the next game.

Camrose Man and Companion Faced Death Many Times

The story as given to the Edmonton Journal concerning the trip made by H. K. Henry of Camrose, Mike Miller of Grimshaw, and Fred Firth from McConnell Creek, B.C., (gold mining area) to Fort Graham reveals to some extent the perils which the three men faced, and which one of the number, Firth, failed to survive.

Additional details of the tragedy in which Fred Firth, Edmonton youth lost his life on the Finlay river on May 22, were contained in a communication to the Journal Friday, from Prince George, B.C.

Hal, K. Henry of Camrose and Mike Miller, Grimshaw, who managed to reach shore safely when the raft on which they were floating down the Finlay river with Firth, struck a log jam, went on to Prince George with O. P. Olson, river transport manager of the Rush Transfer.

Miller and Henry were members of a party of 15 who were prospecting for gold on McConnell Creek. They arrived there on March 16, having gone in by plane from Burn's Lake.

The group took only a small quantity of provisions to the district as they expected that supplies would be taken to them at regular intervals by aeroplane—owing to heavy snowfalls and unfavorable weather conditions, the plane was not able to fly supplies to McConnell Creek after April 6 and by May 16 the condition of the party was desperate.

Henry and Miller volunteered to go for supplies and Firth offered to accompany them.

The three set out with the rifles, blankets and a small quantity of food. The route taken was over the Ingenika river to Fort Graham. The journey at that time of the year was extremely dangerous, spring freshets transforming rivers and creeks into raging torrents.

In addition deep canyons, rocks, and windfalls had to be crossed.

North Fork creek and Flaneau creek in which the water was racing at a high speed, had to be waded or swum by the party.

Despite terrible hardships the trio reached the mouth of Polly creek, where a halt was made to build a raft before continuing toward Fort Graham.

The water was ice cold in the Ingenika river and the three men had to battle continuously to keep their frail craft from being caught on log jams, tree roots or hidden rocks. Several times it was necessary to jump on to sand bars and pull the raft around log jams.

Hopes of assistance being obtained from Indians and trappers at the mouth of the Ingenika were dashed upon reaching that point, when it was found that the Indians were all out with the last fur catch. It was therefore decided to keep on in the direction of Fort Graham.

When the Finlay river was reached conditions became much more severe. Owing to the force of the current, it was impossible to keep the raft in the main channel of the river, and it was a case of trusting to luck.

Not long after the journey down the Finlay was commenced, the raft was hurled against a log jam with great force. Miller jumped and landed safely on the mass of floating logs and a second later Henry also was able to reach safety, but Firth, after his feet struck the quivering mass, lost his balance and slid into the seething torrent and was swept away before either Miller or Henry had an opportunity to assist him.

The survivors discovered that the log jam was at the point of an island and after making a temporary raft of logs and willows they safely crossed to the mainland.

At soon the next day Fort Graham was reached and the men were cared for by Pastor Revelen. For seven days the pair had been exposed to dangers of one kind or another and during the last thirty-six hours of the journey had been without food.—Edmonton Journal.

Pains In Stomach and Bowels So Bad Would Have To Sit Down

Mrs. C. Landry, Moncton, N.B., writes:—"I can certainly recommend Dr. Fowler's Extract of Wild Strawberry for cramps or pains in the stomach and bowels."

"Last Summer I had such awful pains in my stomach, and lower part of my bowels, at times, I would have to sit down. I took 'Dr. Fowler's' and was soon relieved."

"When my children were small I always kept a bottle in the house and it helped them wonderfully whenever any of them had bowel complaints."

ST. PETER AND POLITICS

(By L. J. Wrigglesworth, Didsbury)
When my work down here is finished and I climb the golden stair And meet St. Peter at the Gate, he'll say, "Well, I see—clear!" Then he'll slap me on the shoulder and say, "Well, well, by gum! If there ain't old John Whittleside! Where on earth did you come from?" I'm mighty glad to see you John, but you can't tarry here; The place for you is down below—for reason all men are clear. Your morals they are none too good, your virtues they are many; Your virtues are so few—in fact, I doubt, if you have any. And one thing more—just let me say, I must obey the rule To not let any guys in here that ever skinned a mule. Please don't commence an argument, for this I know too well—in spite of all that you may say, you'll have to go to hell."

"Oh, let me in, dear Peter, please take me in," I'll say;
"For I came here from Didsbury, and walked the whole damned way. I'm footsore, worn and hungry; take pity on me, Pete, That I may share this happy home where there's enough to eat. I know I've been a sinful cuss while roaming through the earth; Fair women were my weakness then, of them there was no dearth, But I have never idle been; for always did I work To earn my measly grub each day, and never did I shirk. But what with crops and prices poor, the way was hard and tough— So if you'll pardon me, I'll say that I've had hell enough; I'm tired of working overtime, so take me in, I pray. And show me to an easy job to while the time away. Then furnish me with snowy wings, that I may learn to fly And soar just like a chicken-hawk up in yon heavenly sky. And let me have a harp of gold, so I can play and sing. 'Till some day, getting low in cash I 'hook' the blessed thing. Now if you'll do this much for me, and all these other bums, We'll vote you into power again when next election comes." "Well said! Thou faithful hayseed! I'll do my best," says Pete; "But please come in the back door way, and clean the barnyard off your feet!"

An editor in a neighboring province has just received a capital prize of \$1,000 from one of the big magazines for giving the best answer to the following question: "What my town needs most." The editor's prize-winning answer was: "Six or eight funerals rightly placed."—Blairmore Enterprise.

After General Pershing had had his teeth removed at a Washington doctor's advice, he heard that his teeth were being sold in souvenir stores in the capital for \$7.50 a tooth. "Famous General's teeth!" Pershing mad as anything, sent three aides to buy up all they could lay hands on, intent on keeping his molars and bicuspids out of the grasp of a morbidly patriotic public. The aides scur-

ried all over town. Toward evening they came back—with 175 teeth.—The New Yorker.

Stettler, June 1.—For manufacturing "moonshine" liquor, Alex Masl who has made his home here for some time, was sentenced Friday to serve three months in jail and pay a fine of \$250, with an additional six months in default of payment.

The Vancouver Council has passed a by-law providing for the closing of gas service stations between 8 p.m. and 7 a.m. on week days. Operators will arrange amongst themselves to have one station in each district open.

KING GEORGE'S CROWN

Expert goldsmiths are adjusting the Imperial State Crown which the King wears at every State opening of Parliament. When he wore it at the last opening the King complained that it did not fit exactly. So it was removed from the Tower of London to the jeweler's workshop under armed guard. Many of the gems are of very ancient origin, though the crown was only made for Queen Victoria in 1838. Amongst the gems is the Black Prince's ruby, over 500 years old and the size of a small hen's egg; the great sapphire from the crown

of Charles II.; the second largest portion of the star of Africa's Diamond, weighing 309 carats; Queen Elizabeth's pearl ear drops and the sapphire from the coronation ring of Edward the Confessor.

There are, altogether in this crown, besides the larger stones, four rubies, eleven emeralds, sixteen sapphires, 227 pearls and 2,783 diamonds.

"So Madge has discovered that the man she married doesn't wear a halo after all."

"Yes, she says he has a yellow streak, all right, but it isn't around his head!"

THOUGHTS BY THE WAYSIDE

Man was born to sorrow—when he gets too old to fall in love he gets the gout.

Sport gives the mind holiday and stops you masticating the ponderous thoughts of life and its perplexities. Ability without enthusiasm—and you have a rifle without a bullet.

The surest way to be happy is to get so busy that you have no time to be unhappy. Play fair, be square, and you will find more sport in living, and less fear in dying.

PASTEURIZATION OF MILK

The last article dealt with undulant fever which is one of the diseases commonly spread by milk, and attention was directed to the fact that if milk is pasteurized it is rendered safe; therefore pasteurization will prevent the spread of undulant fever through milk.

We return to the subject of pasteurization of milk in order to emphasize its importance. We make no apology for repeatedly referring to pasteurization because in that process we possess one of the most effective means of controlling or minimizing the occurrence of certain diseases.

Milk may be dangerous because it may act as the conveyor and distributor of disease germs. Because milk is so widely used and consumed in such large quantities, it is obvious that if it is contaminated with the germs of disease, it is almost sure to spread disease amongst a large number of people. Disease germs may enter the milk directly from the cow, that is, the cow suffering from contagious abortion or tuberculosis may pass out the germs of these diseases in the milk, or the milk may after milking be contaminated with disease germs from the cow which have left the body of the animal in its excreta.

Disease germs may also gain entrance into the milk from the milker or other milk handlers. The germs of disease are to be found not only in the bodies of those actually ill but also during the time when they are coming down with the disease and often for a considerable time after recovery.

The germs leave the body in the

secrections and excretions of the body. So it is that coughs, sneezes, particles of saliva, or excreta remaining on unwashed hands are likely to carry disease germs and if they gain entrance to the milk, then the milk is contaminated and will spread the germs to those using the milk.

It is in this manner that scarlet fever, septic sore throat, typhoid fever, and human tuberculosis are spread by milk. There is no system of inspection and one may say there is no measure of practical care which can be taken that will assure the safety of raw milk. There is only one practical method of making milk safe and that is pasteurization, failing which milk should be boiled before use. Our aim should be as clean a milk as possible from healthy cows rendered safe by pasteurization.

Questions, concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

MILLET LOCAL NEWS

Bobby Havar, is visiting at the home of his sister, Mrs. Charley Moonen.

Mr. and Mrs. Albert Larson and Mr. Willacy, were visitors at the Charles Brinker home on Sunday.

R. P. Roop, a prominent farmer in the Millet district, and noted for his Poland China hogs, was an Edmonton visitor last week.

Dick Northey and sons, Art and Lloyd, of Heister, spent a few days at the home of Mrs. Ella Elder, visiting their son and brother, Mel Northey.

Mr. Roseberg, having recently moved back to Alberta from Pennsylvania, spent Saturday night at the home of Mr. and Mrs. Charles Brinker.

Due to illness, your correspondent was unable to make the customary rounds for news this week, so we will try to put in next week what we so unavoidably neglected this week.

The Millet School Fair association wish to convey their sincere thanks to all friends who so kindly gave their assistance in the concert and helped to make it such a grand success.

Mrs. Ed. Kinchella, who recently underwent a serious operation in the Wetaskiwin hospital, is rapidly improving since her return home. She was able to spend Saturday afternoon visiting her sister, Mrs. John Maine, and Sunday afternoon visited at the Harry Scott home.

On Friday evening the Scouts baseball team will play the Telford team on the local diamond. It should be a pretty good game if all reports are correct. The game will start at 7:30 p.m. sharp. Now Millet, turn out and let's boost our boys. At the Telford picnic which will be held on July 1st, the Scouts will play a return game of baseball, which should also be worth watching.

THE REAL REASON

You'd like to know the reason why unemployment is so high. Why there is a wave of crime, why you cannot keep a dime, why divorce is now so rife, why you bicker with your wife, why you get appendicitis, why your kids get tonsillitis, why outgo wages income wanes, why on holidays, it rains; why they raise the taxes so high; why your wages sink as low; why the speckled trout won't bite, why your garden gets the blight, why mosquitoes are a pest, why your golf has lost its zest; why the war clouds hover near, why the world is out of gear.

Don't blame the poor old government. For all this woe and discontent; But blame the pair of scientists — that "team" Who went and split the atom's blinding atom! F.M., Rocky Mountain House.

Look at the label on your paper.

MEETINGS

A. P. MITCHELL, M.L.A.
CONSTITUENCY OF LEDUC

C.G.I.T.

The work of the Jolly Junior and Cherry Groups of the C.G.I.T. was making calls among relatives here on Sunday.

Alfred Jevne, from east of Millet, a member of the Jevne orchestra, was at Edmonton last week.

Mr. and Mrs. Leonard Felling of Los Angeles, California, were visitors at the home of John Maine the first part of the week.

The U.F.W. will meet at the home of Mrs. Ross on Friday, June 17th. Roll call will be answered by "Magazines we enjoy in our homes." A course of Interior Decorating will be held at the home of Mrs. Ross on June 17th and 18th, from 10 a.m. until 4 p.m. Lunch will be served at noon. Everybody welcome.

Here and There

Captain L. D. Douglas, R.N.R., recently named commander of the Pacific speed Queen, the Empress of Japan, largest of Canadian Pacific liners on the Pacific, recently brought his 25,000-ton charge alongside Pier B, Vancouver within 44 minutes of the Pacific record.

His Excellency Rana Phagat Chandra Bahadur, Rajah of Jubbal, a traveller on the Empress of Japan from the Far East, recently. He might have been taken had any business man but for the presence of his wife, daughter of the Maharajah of Kathmandu, India, who was attired in Indian garb.

Crop conditions in western Canada are most encouraging and, given normal weather conditions, the quantity and quality of the harvest will go a long way towards restoring confidence and prosperity. Grant Hall, vice-president of the Canadian Pacific Railway, stated recently on his return from a tour of inspection of the company's property.

Final figures of butter production in Alberta for 1931 amount to 22,597,822 pounds, which is more than 600,000 pounds above the previous highest year's record for the province. Closely associated with butter production is a movement inaugurated by the Federal and Provincial Departments of Agriculture to encourage farmers to enlarge their forage crop areas.

Major "Bill" McGeehan, one of America's best known columnists, and General Hiram, a veteran defence man of Boston Bruins, landed a 19 and a 30 pounder salmon from New Brunswick waters respectively in May. The Major got his fish with a four-ounce trout rod on the Gula River; Hitchman was fishing at Hart's Pool near Fredericton on the Saint John River.

John Cudaby, of Milwaukee, hunting across the Great Divide, near Banff, and faced by a furious charging wounded grizzly almost within striking distance and with but one cartridge left in his rifle, coolly stood his ground and dropped the monster at his feet. Mr. Cudaby has hunted in India, Africa and Alaska, but said he had never had the thrills he experienced on this recent grizzly hunt.

Success of the bargain trips over week-ends and holidays which the Canadian Pacific has put into effect this year was further attested by the great popularity enjoyed during the recent Victoria Day holiday and in week-ends following. To take one large centre—Montreal—the city was literally invaded by the great influx of visitors from eastern Canada and the United States and other big Canadian cities report similar conditions.

Brother officers of the Canadian Pacific Railway, representatives of transportation systems in Canada and the United States, members of the Masonic Order and of Rotary and sorrowing friends from virtually all walks of life united in an impressive tribute to the late George A. Walton, general passenger agent of the railway at his funeral in Montreal recently. The remains were taken to Winnipeg where burial took place in the Elmwood Cemetery with His Honor James D. McGregor, Lieutenant-Governor of Manitoba, Mayor Ralph H. Webb, of Winnipeg, and many other officers of the company in attendance. His Grace Archbishop Matheson, assisted by the Rev. S. Reed of St. Luke's Anglican Church, conducted the funeral service. (847)

GRASSHOPPERS AND CUTWORMS

Advices received by the Alberta Wheat Pool indicate that there has been comparatively little damage from grasshoppers and cutworms up to the present. The cool wet weather has had the effect of curtailing the ravages of these pests. It is altogether likely that there will be no serious damage to Alberta crops from either grasshopper or cutworm this season. Unfavorable weather, as far as cutworms is concerned, may eliminate the danger of any serious outbreaks for a number of years.

MILLET LOCAL NEWS

Keith Scott of Edmonton, was seen making calls among relatives here on Sunday.

Alfred Jevne, from east of Millet, a member of the Jevne orchestra, was at Edmonton last week.

Mr. and Mrs. Leonard Felling of Los Angeles, California, were visitors at the home of John Maine the first part of the week.

The U.F.W. will meet at the home of Mrs. Ross on Friday, June 17th. Roll call will be answered by "Magazines we enjoy in our homes." A course of Interior Decorating will be held at the home of Mrs. Ross on June 17th and 18th, from 10 a.m. until 4 p.m. Lunch will be served at noon. Everybody welcome.

Here and There

A Baby Clinic will be held in the Community hall on Thursday, June 23rd, from 10 a.m. to 4 p.m., under the auspices of the W.I. and U.F.W.A. Every mother welcome to bring children.

Mr. and Mrs. Roy Campbell of Edmonton, visited at the home of Mrs. Ella Elder on Sunday; Mr. Campbell also spent a few hours at the home of his sister, Mrs. Ed. Pogue.

We are pleased to announce that the concert and dance put on by the Millet School Fair association was an outstanding success, nearly all the items on the program being given by the winners of both gold and silver medals at the School Musical Festival recently held in Leduc. A two hour program was heartily enjoyed by a full house, and it is to be regretted that the length of program would not permit the many encored calls for. After the concert dancing was enjoyed until the wee small hours of the morning by a large crowd, who tripped merrily to the strains of Thorne's orchestra, who by the way, supplied splendid music.

BUS CATCHES FIRE

Edmonton, June 11.—Passengers on the Calgary-Edmonton bus fled to the ditches Saturday afternoon and passing traffic halted at a safe distance as persistent flames shot out from under the engine hood and fenders of an exploding gas tank checked curious onlookers.

Finally, use of sand and an extra hand fire extinguisher, rushed to the city limits by a motorist, subdued the fire with slight damage. It was said to have originated from a short circuit.

Derwent, June 11.—Waters of Gid-eon lake claimed the lives of Mike Hatchuk, 13, and Harry Myloski, 11, Friday afternoon. The lads had left Gid-eon lake school at about 4 p.m. and were making their way home, ward when apparently they decided to bathe in Gid-eon lake, 12 miles north of here. They were alone at the time and neither could swim.

When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to delicate infants without colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no purgatives—is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

CASTORIA
CHILDREN'S CRY FOR IT

RELIEF

from HEADACHES COLDS AND SORE THROAT NEURITIS, NEURALGIA

Don't be a chronic sufferer from headaches, or any other pain. There is hardly an ache or pain Aspirin tablets can't relieve; they are a great comfort to women who suffer periodically. They are always to be relied on for breaking up colds.

It may be only a simple head-

ache, or it may be neuralgia or neuritis; rheumatism. Aspirin is still the sensible thing to take. Just be certain it's Aspirin you're taking; it does not hurt the heart. (Made in Canada.)

BEWARE OF SUBSTITUTES

Seven million bananas, almost one for each person living in Canada, were brought on the Canadian National liner, Lady Sumner, from Bermuda and the British West Indies recently. In addition to the bananas, which come from Jamaica there were a thousand bags of coconuts, much sugar and many varieties of West Indian citrus fruits. Also, there was a large quantity of Bermuda celery, as well as other Bermuda-grown vegetables that flourish on the Canadian market before Canadian-grown vegetables appear.

Suffered So From Constipation Had To Go To The Hospital

Miss E. G. Gee, Lake Francis, Man., writes:—"I was so badly constipated I had to go to the hospital and have my appendix removed. When I came home my doctor told me to take a laxative medicine to keep my bowels in order. I got a vial of Milburn's Laxa-Liver Pills and found them very satisfactory for this purpose, as there are no gripping pains after their use."

Price 25c. a vial at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PROPERLY BREWED BEER is a healthful food

Thousands of the working classes, while engaged in hard physical labor, find in beer, a cheap, healthful food, which besides its nourishing effect, possesses invigorating and strength-restoring qualities. A beverage conducive to health, in the direction of moderation and true temperance.

W.C.T.U.

During the year ending March 31st, 1931, through the government liquor stores of Alberta, 942,470 sales were made to holders of individual permits, at an average for each sale of \$4.80.

2,542 gallons of beer, ale and stout were sold which was 91.88 per cent of total sales.

Total sales amounted to \$4,678,100. The net profit for the year is \$1,738,942.

Approximately 3,521,500 gallons of malt liquor manufactured in Alberta were disposed of by the brewers through Distributors Ltd. to licensees, permit holders, and the Board during the year. The brewers also exported to other provinces some 360,000 gallons.

Taxes paid to the Dominion Government during the year by the Board and the brewers of Alberta totalled more than \$2,087,000.

No account is given in the report of the happy homes and precious individuals exploited during the year's business.

It is stated that no authority can be granted under the government Liquor Control Act of Alberta to any person to manufacture home-made wine or beer, and no permission is granted by the Federal Government to make wine or beer in contravention of the Alberta laws.

Nurse Tells How to
Sleep Sound, Stop Gas

Nurse V. Fletcher says: "Stomach gas bloated me so bad I could not sleep. One spoonful of Adolfa brought out all the gas and now I sleep well and feel fine." Cooke Drug Co.,—In Millet by Allin & Stephen's Drug Store.

HIS HEALTH
IMPROVED 40%After Use of Kellogg's
ALL-BRANIf you are constipated, read this letter which Mr. Murray had attested by Notary Public:
"Two months ago I commenced using Kellogg's ALL-BRAN to relieve constipation. I am in better health today than I have been in years, due to the use of your wonderful bran. My bowels move regularly, and my general health has improved 40%."—George A. Murray (address upon request).

Laboratory tests show ALL-BRAN brings two things needed to correct constipation: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. ALL-BRAN also furnishes iron for the blood.

The "bulk" in ALL-BRAN is similar to that of lettuce. Inside the body, it forms a soft mass. Gently it clears the intestines of wastes.

How much better to use ALL-BRAN than to abuse your system with pills and drugs—often harmful.

Two tablespoons daily will overcome most types of constipation—in serious cases, with every meal. If your intestinal trouble is not relieved this way, see your doctor.

Use as a cereal with milk or cream, or in cooking. At all grocers in the red-and-green package. Made by Kellogg in London, Ont.

WETASKIWIN BAPTIST CHURCH
Rev. F. W. Benke, pastor
11 a.m.—Sunday school.
7:30 p.m.—Gospel service.G. M. BLACKSTOCK, MEDICINE
HAT, MASONIC CHIEF

G. M. Blackstock, K.C. of Medicine Hat, was elected grand master of the Masonic Lodge of Alberta, at the concluding sessions of the twenty-seventh annual communication of the order Thursday afternoon in the Masonic Temple.

Other elections were as follows: John Martland, Edmonton, deputy grand master; V. A. Boese, Calgary, senior grand warden; M. N. Dewdney, Edmonton, junior grand warden; Tom Shaw, Calgary, grand treasurer; J. W. H. S. Kemmis, Calgary, grand secretary; W. B. Mercer, Strathmore, grand registrar; Rev. C. B. Oakley, Elnora, grand chaplain; and Percy S. Fielding, Mannville, grand tyler.

The next session will be held in Calgary in June, 1933, it was decided. The newly-elected grand master succeeds Rev. Dr. George W. Kerby, of Calgary.

REPORT 500,000 FACE
STARVATION IN CHICAGO, ILL.

Chicago, June 3.—Half a million Chicagoans face starvation unless federal aid is procured, a group of bankers and civic leaders told President Hoover by telephone, Thursday.

The action was taken after the Illinois emergency relief commission announced that dwindling finances will force the closing of the city's relief stations after Saturday night.

Wilfred S. Reynolds, executive secretary of the commission, said it has been feeding 111,000 families, or 500,000 persons, at \$23 a month, and that these persons will have no other place to obtain food.

THE MENACE OF FLIES
AND HOW TO AVERT IT

Scientists and medical authorities are agreed that the common house fly is a disseminator of typhoid, diphtheria, dysentery, infantile diarrhea and other dangerous diseases.

With the coming of hot weather the flies arrive, as surely as night follows day, and the only way to check the menace is to kill them before they have a chance to breed and get in their deadly work.

Keep all food where it is impossible for flies to settle on it and deposit their deadly excreta. Use screens on all doors and windows. And, most important of all, early in the season, start getting rid of all the flies by the use of a reliable fly killer.

Canadian housewives have proved to their satisfaction that Wilson's Fly Pads are the cleanest, handiest, and most effective fly killers on the market and have given complete satisfaction in Canadian homes in half a century. They kill all the flies.

A few Wilson's Fly Pads, used as directed for 2 or 3 hours every day, will keep the house or store absolutely free from these deadly pests throughout the whole fly season.

President R. B. Welliver and Mr. Harold J. Snell, representing the Board of Trade, met Mr. Chas. Sellens, resident architect at Calgary, Dominion Department of Public Works, in Red Deer last week, and went into the matter of beautifying the post office grounds for which the Board of Trade has been pressing. Mr. Sellens stated that his department were quite sympathetic to the request and had included a sum in his year's estimates for the work, but owing to the economy program it was put over for a year. The Red Deer representatives told Mr. Sellens that with the City Square, the Court House and the Memorial, it only needed the fixing up of the post office grounds to round out an attractive civic centre—Red Deer Advocate.

"When I am big, mamma, I'm going to marry a doctor or a minister."

"Why, my dear?"

"Cause if I marry a doctor, I can get well for nothing, and if I marry a minister I can be good for nothing."
